For the NRCS proposed project described above, I provide my concurrence that the Applicant has applied for an NRCS Conservation Contract to implement permanent vegetative or structural practices that may affect my land and/or water rights. It is understood that NRCS will work with the applicant as the decision maker for this project, including decisions about (but not limited to) layout, design, implementation, payments, etc. It will be the Applicant's responsibility, **not NRCS**, to correspond with me about these practices and contract from this day forward.

The **attached map** shows how and where the proposed NRCS practice may affect my land and/or water rights. I am in concurrence with the planned layout of permanent vegetative and/or structural practices as described above, and I have attached my comments, concerns and/or questions on this Concurrence form to make the Applicant and NRCS aware of my needs.
